

Understanding the World

This is divided into three areas.

People and Communities

This area is all about themselves and the communities they belong to. Encourage your child to talk about their favourite things.

The World

This area is all about paying close attention to the world around them. Autumn is an ideal time to explore this as the bright colours, conkers and seeds are fascinating. Encourage your child to talk about what they notice around them.

Technology

This area is all about understanding how technology is used. Talk to your child about technology you have around the house and how it is used. It is a good opportunity to talk about how to stay safe using technology. Have a discussion about rules when using this.
