19th January 2023

Dear parents and carers,

SAVE THE DATE – SATURDAY 18TH MARCH

As you will be aware following various letters since September, this year, Abbey Woods Academy is trying to improve the school environment for both the pupils and wildlife. The most important event in that process will be to plant a hedgerow around the perimeter of the school playing field.

For that, **we need your help!** We would like the whole community to contribute as part of a community-planting day. Obviously, we want you - the families of children within the school right now - to be involved but we would also love the wider community to participate too.

Therefore, if possible, please set aside **Saturday 18th March** in your diaries and share with anyone else you think might be interested.

More details will follow soon but we will start in the morning and, if enough people attend, could be finished within a couple of hours. There will be 1,600 saplings to plant!

We look forward to seeing you all on **Saturday 18th March!**

Many thanks,

Mr. Jenner,
Year 5 Teacher.
